It is hereby agreed and understood between \_\_\_\_\_ and Gwinnett Officials Association (GOA) that no employee/employer relationship exists, and GOA recognizes all basketball referees as independent contractors.

The Independent Contractor Agreement provides that each individual official is responsible for providing his or her own liability, medical, dental, and any other insurance coverage which might be necessary in connection with his or her assignment to officiate basketball games. It further provides that said independent contractor shall not hold the officers (individually or as a group), directors, booking agents, executive secretary, or any other representatives of Gwinnett Officials Association responsible for any injury claims or legal action which might arise from assignments made to officiate basketball games.

I have read and understand all the GOA by-laws and policies. I hereby agree to completely adhere and comply to all said by-laws and policies. I also agree and understand that non-compliance with any and all of these by-laws will result in a variety of disciplinary actions.
